Scientific Fair

The Scientific Fair (SF) is an informal get-together among people who works in the field of Astroparticle Physics: students, researchers and academics of the GSSI, of the University of L'Aquila and the National Labs of Gran Sasso.

We warmly encourage you to exchange ideas, discuss about science and possible collaborations. Please bring your scientific works, theses, posters, etc and sell them well!

Calendar of the Scientific Fair 2017

Location: GSSI Library

Date: Afternoons of the first week, 15.00 - 18.00

Nov. 6 Meeting of the new students and local staff (GSSI, LNGS, L'Aquila Uni)

Nov. 7 Meeting of the new students and local staff (GSSI, LNGS, L'Aquila Uni)

Nov. 8 Talk by Marica Branchesi on the discovery of gravitational waves and discussion

Nov. 9 Seminars of the PhD students of the 2nd year and passage to the 3rd year. All GSSI staff and postdocs warmly invited.
