Gran Sasso Science Institute — Computer Science Group
Expression of Interest for an Associate/Full Professor Position in Machine Learning

The Gran Sasso Science Institute (GSSI — http://www.gssi.it) is a new, ambitious Centre for Advanced Studies and PhD School established in L’Aquila (Italy).

The Computer Science Group at the GSSI (http://cs.gssi.it/) invites expressions of interest for a permanent position in Machine Learning at the level of Associate or Full Professor.

Candidates must have an excellent publication record, a clear potential to promote and lead research activities, and a specific interest in teaching skilled, internationally-recruited students at the postgraduate level.

Applications Applicants should submit their expression of interest by sending

• a motivation letter stating for which position level they apply,
• a curriculum vitae,
• a list of publications and
• a brief research statement.

Applications (and questions regarding the application process) must be submitted in electronic form, preferably by Thursday, 31 January 2019, to eoi-cs@gssi.it.

Disclaimer Please note that this is not a job advertisement. Based on the received expressions of interest, the Gran Sasso Science Institute will decide whether to open an official call for an associate/full professor position in machine learning and which selection procedure to follow.

Additional information

1. Duties: Teaching postgraduate courses, leading internal seminars and tutoring PhD students. All activities are in English.

2. Salary: The salary will be determined on a personal basis, also taking into account past positions covered abroad. An indicative figure of the gross amount for the starting (minimum) salary is 72,431 € per year for a full professor and 50,831 € per year for an associate professor. Net income may vary depending on income taxes, local taxes, retirement plan, health care deduction and tax exemptions. Professors who have held a tenured position outside Italy for more than three years (at the corresponding level) might be eligible for a partial recognition of past services, depending on specific legal constraints.
