The Physics Division of the Gran Sasso Science Institute (GSSI) invites expressions of interests for faculty positions at the Assistant Professor level (Tenure Track) from highly qualified scholars worldwide with a research activity, either theoretical or experimental, in Astroparticle Physics.

The GSSI Physics Division hosts scientists carrying out interdisciplinary research on a variety of subjects, ranging from underground Particle Physics, gravitational wave Astronomy, Multi-messenger astrophysics, High Energy Astrophysics, Cosmic Rays and Cosmology. The GSSI is a Center for Advanced Studies, with a prominent program of graduate courses. About 40 Physics Graduate Students from all over the world are at GSSI at any given time, and part of the duties of the Faculty is to provide teaching and supervision of their research activity. Interdisciplinary projects aimed at increasing the connections with other Ph.D. Courses at GSSI (mathematics, computer science and social science) are strongly encouraged.

The GSSI typically announces several tenure-track positions every year, in different fields. The present call for expressions of interest is aimed at probing the community of scientists at international level that might want to join the GSSI faculty.

Candidates willing to work in the exciting GSSI atmosphere, as tenure track Assistant Professors, are required to have a doctoral degree in physics or related fields prior to the appointment, with a proven record of achievements, a clear potential to promote and lead research activities and a specific interest in teaching at the graduate and postgraduate level to a small set of particularly skilled students.

A curriculum vitae, list of publications, and a brief research statement should be sent by email (eoi-phys@gssi.it), together with a short motivation letter in which the candidate discusses the reasons for his/her interest in joining the GSSI team. The candidates should also arrange for two recommendation letters to be sent directly to the GSSI (eoi-phys@gssi.it), to support their application. The expressions of interest should be sent at your earliest convenience and in any case not later than October 31, 2020.

GSSI is committed to gender balance, inclusion and diversity. All expressions of interest will be given proper consideration, independent of ethnicity, religion, age, gender, sexual orientation, or disability.
